

LEONEL ZORZOLI

WEB DEVELOPER

RESUME

I am a self-taught student with a passion for computers and creating products that help the community. I like to be at the intersection of design, marketing and engineering.

EXPERIENCE

FREELANCER

Ago 2020 - Present

- Create designs of different types of documents.
- Creation, maintenance and updating of web pages.
- Assistance in the design of different applications.

PHOTOGRAPHER AND DESIGNER

2010 - 2017

- Design of logos, cards and different documents.
- Carrying out photography work for events.

PROJECTS

01. FINDT

FindT is a project that I am currently doing. It is a web application for students and programmers who want to connect with other people to collaborate and carry out different jobs.

02. CHATAPP

Using Python with Flask and Socket.io I made a chat where multiple users can communicate with each other through channels in real time.

Demo: <https://leo-flack.herokuapp.com/>

03. ECOMMERCE

A simple representation of an online store created with React. Through the React-Redux states I made a shopping cart and some filters for the representation of products.

Demo: <https://e-commerce-redux.web.app/>

04. BOOKS

Using Flask and PostgreSQL I created a website that has over five thousand books where users can search for one and leave their reviews.

Demo: <https://leo-books.herokuapp.com/>
